## THE BEGINNING

Legend has it, Front Runner was born between two seasoned off-road vehicles in Botswana. A handful of friends from South Africa with backgrounds in engineering, design, manufacturing and off-road racing gathered around a campfire and shared their struggles with equipment failures from expeditions past. With fresh elephant tracks nearby and a majestic Baobab stretching to the night sky as a witness, they decided to take their shared passions and dream up new, smarter vehicle-adventure gear that's built to last.

Front Runner, founded in 1999, is based in Johannesburg, South Africa, and manufactures gear for vehicle-based adventures.

**“FRONT RUNNER HAS RELENTLESSLY SUPPORTED ADVENTURE TRAVEL AROUND THE GLOBE SINCE WE BEGAN. WE PUSH ALL OF OUR PRODUCTS TO THE LIMITS IN THE HARSHTEST OF CONDITIONS. THIS IS THE STANDARD WE HAVE AT FRONT RUNNER AND ENSURES THAT OUR GEAR IS ALWAYS THE BEST IN THE BUSINESS. ”**

**- STANLEY ILLMAN, FOUNDER OF FRONT RUNNER OUTFITTERS**

## THE MISSION

Front Runner is dedicated to inspiring adventure, connection, and new experiences. By focusing on the design and manufacturing of reliable vehicle-based products, combined with top notch customer service from a diverse global team, we give customers reliable gear so they can choose their own adventure.

## THE PEDIGREE

Since that eventful campfire gathering, Front Runner has quickly grown into a global brand. With gear that's been tried and tested over millions of miles, in the most extreme conditions and around the globe, Front Runner has earned a trusted reputation of making the world's strongest, most reliable, vehicle-based adventure gear. From intrepid explorers and government agencies to demanding weekend warriors and athletes, with Front Runner the adventure never has to stop.

## **DESIGN PHILOSOPHY**

The Front Runner team has poured countless hours, days and years into achieving our Mission and that dedication comes through in our products.

### **ALL OF FRONT RUNNER'S PRODUCTS ARE:**

#### **WELL DESIGNED**

Front Runner products are designed with the clean lines and shapes of modern vehicles in mind. While rooted in functionality, our racks are intended to elevate and enhance the vehicle's look in each and every application.

#### **DURABLE AND STRONG**

Front Runner doesn't cut corners. All our cargo carrying accessories are built with best-in-class materials.

Front Runner gear is designed to last longer and survive more abuse from the elements than the vehicles the gear is mounted to.

#### **LIGHTWEIGHT**

Front Runner harnesses the strength and durability of the same materials used to build airplanes and tanks.

One of those materials, aluminum, is on average 30% lighter than steel and offers the best strength to weight ratio.

# OUR RACKS

A GREAT ADVENTURE STARTS WITH A GREAT RACK AS THE FOUNDATION. OUR RACKS ARE MADE IN AN ISO -9001 : 2015 CERTIFIED MANUFACTURING FACILITY WHICH ILLUSTRATES HOW COMMITTED WE ARE IN DELIVERING THE HIGHEST QUALITY RACKS AND ACCESSORIES.

# OUR RACKS
